City Council Meeting Date: 1/12/2017

TO: Robert Hanna, City Manager

FROM: Don Green, Director of Transportation Services

SUBJECT: Resolution: Award of Bid #CB-1706 - Purchase of 3/4 Ton Trucks. (Don Green)

GENERAL INFORMATION

The city conducted a bid (CB-1706) for the purchase of nine 3/4 Ton trucks of various configuration and for various City departments. After review by Solid Waste and Airport staffs, two vehicles, Units 4011 and 4099 will not be replaced this year. Therefore, only seven of the nine purchases will be made through this bid award. With one vehicle reduction (4099) coming from the Lawrence Hall Chevrolet bid for two vehicles classified in Item 4 of CB-1706, the purchase price is reduced to \$31,563.20 and therefore, doesn't need Council action.

Arrow Ford was the low bidder for vehicles classified in Items 1, 2, 3 and 5 of CB-1706 and the recommended bid award is \$160,710.00, which does require Council approval.

City Council Agenda Memo

City Council Meeting Date: 1/12/2017

TO: Robert Hanna, City Manager

FROM: Michael Rice, Director of Public Works

SUBJECT: Resolution: Award Bid for Repair of Solid Waste Horizontal Grinder. (Michael Rice)

GENERAL INFORMATION

The City of Abilene's Morbark Horizontal Grinder cost \$351,540 in 2009. The City of Abilene received a \$75,000 reduction in the purchase price with the trade in of the previously owned machine, resulting in a net price of \$281,813.10. This machine was recently evaluated by Doggett Heavy Machinery Services, Houston Texas. They specialize in repair of this type of equipment and they have concluded the machine is capable of providing a number of additional years of service provided these repairs are made.

The Solid Waste Services Division's vegetation waste grinder is currently inoperative due to failure of several critical parts that require replacement. The hydraulic PTO clutch, two associated pumps, a torsional coupling, and two elements must be replaced. Additionally, a transmitter for the remote operator's device needs to be replaced. The quote for these repairs is \$52,468.24. The quoted price includes parts, labor, as well as transportation and lodging for two technicians.

SPECIAL CONSIDERATIONS

The Grinding machine is the only city owned piece of equipment that will enable the Solid Waste Services Division to mulch large quantities of tree limbs and thus support the most cost efficient transportation and reuse of the vegetation waste. The Division cannot store or efficiently transport the waste material without the grinding operation being performed. It is vital that the machine be repaired and returned to operation.

Texas Local Government Code, Sections 252.022(a)(2) and 252.022(a)(3) allow the City to forgo competitive bidding procedures in the circumstances of preserving or protecting the public health and safety of the City's residents, and because of unforeseen damage to public machinery, equipment, or other property.

FUNDING/FISCAL IMPACT

The repairs will charged to the Solid Waste Enterprise Fund, object number 62940.

STAFF RECOMMENDATION

Staff supports using Solid Waste funds to repair this machine as soon as possible.

BOARD OR COMMISSION RECOMMENDATION

None.

City Council Agenda Memo

City Council Meeting Date: 1/12/2017

TO: Robert Hanna, City Manager

FROM: Larry Bell, Fire Chief

Ordinance: (First Reading) Amending the Fire Code Pamphlet, which amends The International Fire Code, 2009 Edition, adopted by City of Abilene Ordinance, Section

SUBJECT: 10-47; and setting a public hearing for January 26, 2017 (*Larry Bell*)

GENERAL INFORMATION

Abilene Fire Department is currently responsible for tracking the inspection, testing, and maintenance of fire and life safety systems within the City of Abilene. Occupancies that have fire and life safety systems installed are required by the Abilene Fire Code to have the systems inspected and tested on a regular basis. Contractors are not required to notify the Fire Department of the completed inspections unless the systems do not pass inspection creating inaccurate data in Abilene Fire Department's reporting software.

An internet-based tool used to document all inspections would improve code compliance, reduce false alarm activity and provide a safer community.

SPECIAL CONSIDERATIONS

The ordinance would require contractors to report inspection, testing, and maintenance of fire and life safety systems so that the Abilene Fire Department would have access to complete and up-to date information. The web-based system utilized would be the one chosen by the City and formalized by agreement between the system and the City. Life safety systems requiring record of inspection will include fire alarm systems, sprinkler systems, standpipes, commercial kitchen hood suppression systems, special suppression systems, private hydrants, fire pumps, and spray booths.

FUNDING/FISCAL IMPACT

There is no cost to the City or business occupant. Nominal fee for administration is the responsibility of the contractors performing the inspection, testing and maintenance. Most systems are only inspected once per year.

STAFF RECOMMENDATION

Staff recommends approval.

SUBJECT:

City Council Agenda Memo

City Council Meeting Date: 1/12/2017

TO: Mr. Robert Hanna, City Manager

FROM: Mr. Dana L. Schoening, Director of Planning and Development Services

Ordinance & Public Hearing: (Final Reading) Z-2016-42. A request from International Medical Christian Ministries Inc., agent Richard Humphries, to rezone property from AO (Agricultural Open-Space) and PD-37 (Planned Development) to GR (General

Retail) and NR (Neighborhood Retail), located in the 7300-7400 Blocks (east side) of

Buffalo Gap Rd. (Dana Schoening)

GENERAL INFORMATION

The subject property totals approximately 12 acres, all of which is vacant. Single- and Multi-family (MF) Residential Districts lie directly to the south and east of the subject 12 acres. These zoning districts are occupied by a combination of single-family, townhouse and duplex residences. The same Planned Development District which encompasses the greater part of the subject 12 acres (i.e., PD-37) also extends further north and east. PD-37 reserves this adjacent and still-vacant acreage for uses allowed in Medium-Density Residential zoning districts. An Agricultural Open Space (AO) District is located to the west, across the 120-foot width of right-of-way for Buffalo Gap Road.

That portion of these subject properties zoned AO has had such zoning since this vicinity was annexed during 1980. The remaining portions were included within PD 37 in 1986, along with the Mesa Springs properties to the north. The Mesa Springs development is a retirement and nursing care community with facilities located approximately 630 feet north from the subject 7.02 acres.

Currently, the subject properties total approximately 12 acres and are zoned AO and PD 37. All are currently vacant. The AO-zoned property is 2.36 acres. The remaining properties totaling 9.44 acres are included within Planned Development District Number 37. The approved Preliminary Plat (of this acreage) and Abilene's Master Thoroughfare Plan show Wagon Wheel Avenue extended across Buffalo Gap Road and through these properties. The applicant is requesting to rezone 7.02 acres to GR. The PD currently allows for NR (Neighborhood Retail) uses on a small portion of the southwestern corner of PD 37 and MD (Medium-Density) Residential for the remaining acreage. The applicant is wanting to rezone these in order to make this property more marketable to potential buyers.

The Future Land Use section of the Comprehensive Plan designates this property as 'low density residential'. AO zoning typically functions as a "holding zone" until an applicant desires to rezone to a zoning classification compatible with planned use of nearby property. However, at the time when Wagon Wheel (designated "collector" street) is extended, the properties adjacent to its future intersection with Buffalo Gap Road (designated an "arterial" street) will be located at a node well-suited for some degree of commercial development.

SPECIAL CONSIDERATIONS

As provided for in City of Abilene Land Development Code, Article 4, Division 1, Section 1.4.1.3(I)(1), when a written protest against the amendment is signed by the owners of twenty percent (20%) or more of either the area of the lots or land covered by the proposed change, or the area of the lots or land immediately adjoining the area covered by the proposed change and extending two hundred feet (200') from that area, a zoning amendment shall not become effective except by the favorable vote of three fourths of all members of the City Council.

Regarding this particular rezoning item, three property owners have opposed the rezoning. Together these property owners constitute 25.1% of the land area within the radius area. The 200' radius area is the legally defined public notification area as provided for in Land Development Code and Texas State Statutes for rezoning applications. Therefore, because opposition is from 20% or more of land area in the public notification area, a super-majority vote of the City Council is required to approve an ordinance for this rezoning item.

For explanation of the 200' radius area constituting the public notification area, the radius begins at the property line of the property proposed for rezoning. The actual property area proposed for rezoning is not included as part of the public notification area. Only the 200' radius area constitutes the public notification area, therefore the portion of the three properties located within the 200' radius area constitutes over 20% of the total land area that defines the 200' radius area.

FUNDING/FISCAL IMPACT

STAFF RECOMMENDATION

City staff recommends rezoning only the southernmost approximately 2.36 acres (all in M. Talbot Survey No. 103) to a General Retail (GR) classification. These southernmost 2.36 acres may be viewed as the extreme northern limit to a significant "node" of intensive commercial activity clustered around the intersection of Buffalo Gap Road and Beltway South. Both these streets are considered major arterials in Abilene's network of thoroughfares, around which intensive commercial zoning is appropriate, allowing both the exposure and multi-directional street capacity necessary for intensive commercial use.

City staff also recommends rezoning the remaining approximately 4.66 acres (all in M. Talbot Survey No. 102) to a Neighborhood Retail (NR) classification. These 4.66 acres are almost ½ mile north from Buffalo Gap Road's intersection with Beltway South and can hardly be considered part of the same commercial "node" anticipated there. These 4.66 acres are nonetheless at the intersection of a planned collector street (Wagon Wheel Avenue) with Buffalo Gap Road. Neighborhood Retail zoning is generally appropriate at such intersections, with retail trade and services directed toward residential neighborhoods organized around those collector streets. Neighborhood Retail zoning at this particular location may also have the effect of "signaling" the northern limit of land considered suitable for commercial zoning along this segment of Buffalo Gap Road. Neighborhood Retail (NR) zoning here may thus help prevent unsightly and inefficient "strip" commercial zoning along the entire length of Buffalo Gap Road in Abilene.

The portion of property currently zoned as Medium Density MD residential, approximately 4.98 acres, would remain Medium Density MD residential zoning.

BOARD OR COMMISSION RECOMMENDATION

The Planning & Zoning Commission considered and recommended approval of rezoning from AO and PD37 to GR and NR zoning districts, as per staff recommendation, by a vote of five (Smith, Bixby, Famble, Calk, and McClarty) in favor with none in opposition.

On December 15, 2016, City Council approved this item on first reading to move to a public hearing scheduled for January 12, 2017.

ZONING CASE Z-2016-42 STAFF REPORT

APPLICANT INFORMATION:

International Medical Christian Ministries INC. Agent: Richard Humphries, IMCM Board Member

HEARING DATES:

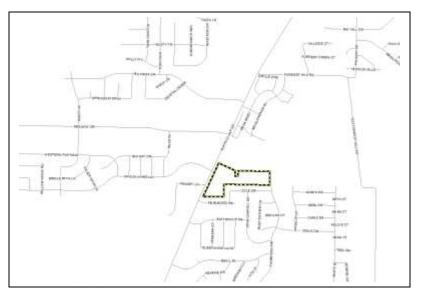

P & Z Commission: October 3, 2016 (**Tabled**) P & Z Commission: November 7, 2016

(Tabled by Applicant)

P & Z Commission: December 5, 2016 City Council 1st Reading: December 15, 2016 City Council 2nd Reading: January 12, 2017

LOCATION:

the 7300-7400 Blocks (east side) of Buffalo Gap Rd, south of Mesa Springs Retirement, and north of Mesquite Forest Subdivision.

REQUESTED ACTION:

Rezone property from a combination of AO (Agricultural Open Space) and PD (Planned Development) Districts, to General Retail (GR) District and Neighborhood Retail (NR) Districts.

SITE CHARACTERISTICS:

The subject property now totals approximately 12 acres, all of which is vacant. Single- and Multi-Family (MF) Residential Districts lie directly to the south and east of the subject 12 acres. These zoning districts are occupied by a combination of single-family, townhouse and duplex residences. The same Planned Development District which encompasses the greater part of the subject 12 acres (i.e., PD 37) also extends further north and east. PD 37 reserves this adjacent and still-vacant acreage for uses allowed in Medium-Density Residential zoning districts. An Agricultural Open Space (AO) District is located to the west, across the 120-foot width of right-of-way for Buffalo Gap Road.

ZONING HISTORY:

That portion of these subject properties zoned AO has had such zoning since this vicinity was annexed during 1980. The remaining portions were included within PD 37 in 1986, along with the Mesa Springs properties to the north. The Mesa Springs development is a retirement and nursing care community with facilities located approximately 630 feet north from the subject 7.02 acres.

ANALYSIS:

Current Planning Analysis

Currently, the subject properties total approximately 12 acres and are zoned AO and PD 37. All are currently vacant. The AO-zoned property is 2.36 acres. The remaining properties totaling 9.44 acres are included within Planned Development District Number37. The approved Preliminary Plat (of this acreage) and Abilene's Master Thoroughfare Plan show Wagon Wheel Avenue extended across Buffalo Gap Road and through these properties. The applicant is requesting to rezone 7.02 acres to GR. The PD currently allows for NR

Case # Z-2016-42

Updated: December 29, 2016

(Neighborhood Retail) uses on a small portion of the southwestern corner of PD 37 and MD (Medium-Density) Residential for the remaining acreage. The applicant is wanting to rezone these in order to make this property more marketable to potential buyers.

• Comprehensive Planning Analysis

The Future Land Use section of the Comprehensive Plan designates this property as 'low density residential'. AO zoning typically functions as a "holding zone" until an applicant desires to rezone to a zoning classification compatible with planned use of nearby property. However, at the time when Wagon Wheel (designated "collector" street) is extended, the properties adjacent to its future intersection with Buffalo Gap Road (designated an "arterial" street) will be located at a node well-suited for some degree of commercial development.

PLANNING STAFF RECOMMENDATION:

City staff recommends rezoning only the southernmost approximately 2.36 acres (all in M. Talbot Survey No. 103) to a General Retail (GR) classification. These southernmost 2.36 acres may be viewed as the extreme northern limit to a significant "node" of intensive commercial activity clustered around the intersection of Buffalo Gap Road and Beltway South. Both these streets are considered major arterials in Abilene's network of thoroughfares, around which intensive commercial zoning is appropriate, allowing both the exposure and multidirectional street capacity necessary for intensive commercial use.

City staff also recommends rezoning the remaining approximately 4.66 acres (all in M. Talbot Survey No. 102) to a Neighborhood Retail (NR) classification. These 4.66 acres are almost ½ mile north from Buffalo Gap Road's intersection with Beltway South and can hardly be considered part of the same commercial "node" anticipated there. These 4.66 acres are nonetheless at the intersection of a planned collector street (Wagon Wheel Avenue) with Buffalo Gap Road. Neighborhood Retail zoning is generally appropriate at such intersections, with retail trade and services directed toward residential neighborhoods organized around those collector streets. Neighborhood Retail zoning at this particular location may also have the effect of "signaling" the northern limit of land considered suitable for commercial zoning along this segment of Buffalo Gap Road. Neighborhood Retail (NR) zoning here may thus help prevent unsightly and inefficient "strip" commercial zoning along the entire length of Buffalo Gap Road in Abilene.

The portion of property currently zoned as Medium Density MD residential, approximately 4.98 acres, would remain Medium Density MD residential zoning.

PLANNING AND ZONING COMMISSION RECOMMENDATION:

The Planning & Zoning Commission considered and recommended approval of rezoning from AO and PD37 to GR and NR zoning districts, as per staff recommendation, by a vote of five (Smith, Bixby, Famble, Calk, and McClarty) in favor with none in opposition.

NOTIFICATION:

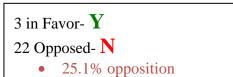

Property owners within a 200-foot radius were notified of the request.

SECOND PETITION

PETITION December 15, 2016

CITY OF ABILENE TEXAS ZONING CITY COUNSEL MEETING

CASE NUMBER Z 2014-42

We the undersigned oppose Neighborhood Retail and General Retail Zoning bordering existing residential homes on Marlboro Drive and Cole Drive.

We are convinced that property values will decline as a result. We are convinced that our neighbors whose properties will be on the same boundary line of the purposed Retail Zoning with only a 30 foot set back will take a great loss not only in property value but enjoyment of their homes.

The backs of retail property are unsightly and attract crime, lighting disrupts sleep, trash dumpsters smell and attract rats and delivery trucks give off diesel fumes to which one neighbor is highly allergic. Increased cut through traffic on our narrow residential street is a hazard to children and also further depreciates the value of our homes.

It seems reasonable to us for the proposed development of retail property to be placed where there are no existing residential homes subject to loss of value.

City Council Agenda Memo

City Council Meeting Date: 1/12/2017

TO: Mr. Robert Hanna, City Manager

FROM: Mr. Dana L. Schoening, Director of Planning and Development Services

Ordinance & Public Hearing: (Final Reading) Z-2016-46 A request from Griffith Lake

SUBJECT: Estates, LLC, agent Tal Fillingim to rezone property from AO (Agricultural Open Space)

to PH (Patio Home) zoning, located 1701 Griffith Road. (Dana Schoening)

GENERAL INFORMATION

The subject parcel totals approximately 49.54 acres and is currently zoned AO. The adjacent properties are zoned RS-8 (Single-Family Residential) to the west, AO to the north and east, AO & RS-6 (Single-Family Residential) to the south. There is some PH (Single-Family Residential Patio Home) zoning to the south along Griffith Road and EN 10th Street as well.

Currently the property is undeveloped. The surrounding area is developed with primarily single-family homes to the west and south. There are some patio homes on the east side of Griffith road and north of E.N. 10th Street. The property has street frontage only along Griffith Road and is proposing two entrances into the subdivision, both onto Griffith Road. Patio homes are a type of single-family residential development.

The Future Land Use section of the Comprehensive Plan designates this general area as 'low density residential'. Griffith Road is designated as a 'collector' street. The desired minimum right-of way width for a "collector" road is 70' with an improved street width of 40'. In this case Griffith Road is approximately a 20' wide paved street with no curb and gutter as would typically be required for new developments. Improvement of Griffith Road will be required adjacent to the proposed subdivision. Additionally, the Master Thoroughfare Plan shows a future collector roadway entering into the proposed subdivision and turning to the south. Due to the proposed design and the substandard nature of Griffith Road and the other subdivision streets, there may be concern with this rezoning. Staff feels that the proposed number of lots may place an overwhelming burden on the present infrastructure in the surrounding area upon full development. These issues should be addressed at the preliminary plat stage.

SPECIAL CONSIDERATIONS

FUNDING/FISCAL IMPACT

STAFF RECOMMENDATION

Staff recommends approval of PH (Patio Home) zoning.

BOARD OR COMMISSION RECOMMENDATION

On December 5, 2016, the Planning and Zoning Commission considered and recommended this request by a vote of five (5) in favor (Bixby, Calk, Famble, Smith and McClarty), and none (0) opposed.

On December 15, 2016, City Council approved this item on first reading to move to a public hearing scheduled for January 12, 2017.

P & Z Commission: December 5, 2016 City Council 1st Reading: December 15, 2016 City Council 2nd Reading: January 12, 2017

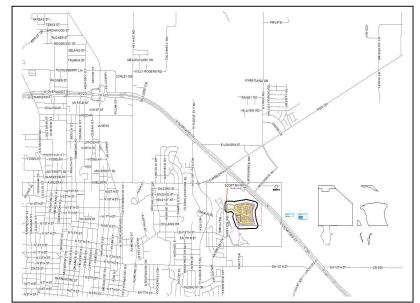

LOCATION:

1701 Griffith Rd. Legal Description being 49.54 Acres out of a 129.17 tract described as A1412 SUR 33 B A L NE/4.

REQUESTED ACTION:

Rezone property from AO (Agricultural Open Space) to PH (Single-Family Residential Patio

Home) zoning. Including approximately 184 new patio home lots.

SITE CHARACTERISTICS:

The subject parcel totals approximately 49.54 acres and is currently zoned AO. The adjacent properties are zoned RS-8 (Single-Family Residential) to the west, AO to the north and east, AO & RS-6 (Single-Family Residential) to the south. There is some PH (Single-Family Residential Patio Home) zoning to the south along Griffith Road and EN 10th Street as well.

ZONING HISTORY:

The property was annexed in 1964 and zoned AO at that time.

ANALYSIS:

• <u>Current Planning Analysis</u>

Currently the property is undeveloped. The surrounding area is developed with primarily single-family homes to the west and south. There are some patio homes on the east side of Griffith road and north of E.N. 10th Street. The property has street frontage only along Griffith Road and is proposing two entrances into the subdivision, both onto Griffith Road. Patio homes are a type of single-family residential development.

• Comprehensive Planning Analysis

The Future Land Use section of the Comprehensive Plan designates this general area as 'low density residential'. Griffith Road is designated as a 'collector' street. The desired minimum right-of way width for a "collector" road is 70' with an improved street width of 40'. In this case Griffith Road is approximately a 20' wide paved street with no curb and gutter as would typically be required for new developments. Improvement of Griffith Road will be required adjacent to the proposed subdivision. Additionally, the Master Thoroughfare Plan shows a future collector roadway entering into the proposed subdivision and turning to the south. Due

Case # Z-2016-46

Updated: December 12, 2016

to the proposed design and the substandard nature of Griffith Road and the other subdivision streets, there may be concern with this rezoning. Staff feels that the proposed number of lots may place an overwhelming burden on the present infrastructure in the surrounding area upon full development. These issues should be addressed at the preliminary plat stage.

PLANNING STAFF RECOMMENDATION:

Staff recommends approval of PH (Single-Family Residential Patio Home) zoning.

PLANNING AND ZONING COMMISSION RECOMMENDATION:

On December 5, 2016, the Planning and Zoning Commission considered and recommended this request by a vote of five (5) in favor (Bixby, Calk, Famble, Smith and McClarty), and none (0) opposed.

NOTIFICATION:

Property owners within a 200-foot radius were notified of the request.
